

POLICY DEVELOPMENT AND ADOPTION

The adoption of new policies, deletion of existing policies, or the revising of existing policies, is the sole responsibility of the Board. Senior administration will assist in the research and development of policy.

The Turtle Mountain School Division Board of Trustees will conduct an annual policy review, based on a three-year cycle. Policy review will be conducted as part of Committee of the Whole meetings. Recommendations for additions, deletions, or revisions of policy will then be referred to regular Board meetings to be considered for adoption.
